

# HUTCH TRICK STAR

## All-American freestyler

□ Hutch has never been known to mess around. Whether he's developing a radical new bike or out shopping for new talent to ride his creations, Hutch spares no expense. The end result is often the very best money can buy. Recently this no-holds-barred approach to BMX crossed over into Hutch's latest endeavor: freestyle. Hutch's bike for the job is called the Trick Star. The riders behind the bike are the best in the business: Woody Itson, Mike Buff and Mike Dominguez. The combination spells big trouble for any and all competitors.

### TRICK STAR FRAME AND FORK

You have never seen anything like this frame and fork before. Anywhere. Anytime. Starting with its double-thick fork drops and rounding out with its rear foot cages and unique coaster brake arm mount, the Trick Star is all Hutch.

Up front you'll find a very business-like pair of one-inch-diameter, leading-axle forks with, as we mentioned, double-thick front dropouts to minimize flex and fight whip. Moving back to the down tube you'll notice Hutch's unique solution to steering head fatigue: a pierced down tube. This is accomplished by means of a smaller gusset tube running diagonally down from the top tube, through the down tube and finally into the head tube. Besides being super strong, this beefmaster setup allows for full, free rotation of the front brake, making helicopters and any number of front-end-turning tricks easy as pie. Tricky, huh? You ain't seen nothing yet!

Moving back toward the seat tube you'll notice the next freestyling feature on the Trick Star—the top tube platform. This footing platform is accomplished by means of two 5/8-inch-diameter tubes running parallel to the top tube. These twin tubes start about three inches in front of the seat and tube and run around in back of it, ending just short of the rear caliper brake. Our only gripe here is that grip tape is not supplied as standard equip. As chrome is slippery stuff, a little grip tape would be a lifesaver.

In the rear triangle you'll find a somewhat normal-looking loop-tail rear design, only this one has some points of interest. One is the rear foot cages

◀ *Woody Itson and the Hutch Trick Star: a million dollars worth of talent aboard \$750 worth of bike.*

*Itson has so many tricks we couldn't even begin to keep track of every one. This is a back-hop variation.*

# TRICK STAR

Designed for both ground and air tricks, the Trick Star performs equally well on the sidewalk and on the quarterpipe. For that matter, you can even race it if you so choose. It handles so well in the dirt that Woody has raced his in the pro class at the famous Orange YMCA track in California.

located on the chain stays. Another is Hutch's unique coaster brake arm mount, which is tucked in behind the seat and chain stays. Besides looking trick, this design should end any possible problem that may occur with the chain stays under severe coaster brake lockups, i.e., a kink in the tube from the downward force of conventional straps. And finally, you'll notice the super-beefy, double-thick rear drops, which minimize rear-end whip and promote one of the stiffest rear triangles we've run across. All in all, strong stuff

*Aerials are no problem on the Trick Star. Despite the light weight of the complete bike, we couldn't find anything that wouldn't take the abuse of an advanced freestyle routine.*

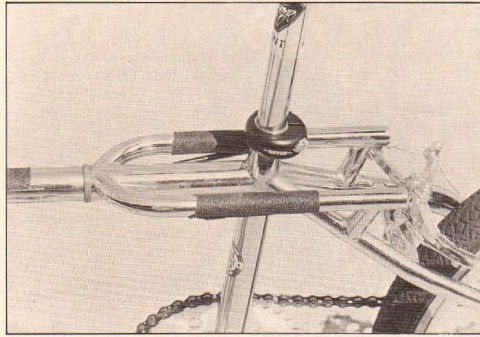

here—not to mention some of the most innovative frame-and-fork features you'll ever run across.

**UNREAL COMPONENTRY**  
 If you're a full-on component nut, you'll flip over the Trick Star's list of goodies. Without going too heavily into it for those of you who aren't into componentry, suffice it to say that the specs on this bike are consistent with Hutch's spare-no-expense philosophy. Everywhere you look you'll find the lightest and highest-quality performance parts: Hutch Aero-Speed cranks,

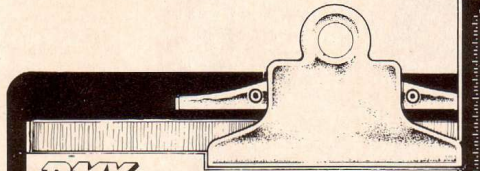

# TRICK STAR

There are platforms all over this bike. Besides this one at the seat tube/top tube juncture, there are also platforms on the chain stays and on the forks.

If there are any tricks that CAN'T be done on the Hutch Trick Star, we haven't figured out what they are yet. Woody Itson pulls off a perfect 360 tail whip.

1. **Bike:** Hutch Trick Star, 20-inch, complete bike.
2. **Age range:** 12 years and up.
3. **Country of origin:** USA.
4. **Intended use:** Freestyle/high-performance street.
5. **Wheelbase:** 35-1/2" to 36-1/2".
6. **Bottom-bracket height:** 11-3/4".
7. **Chain stay length:** 14-1/2".
8. **Steering head angle:** 74.5°.
9. **Seat tube angle:** 72.5°.

10. **Frame:** Hutch Trick Star, chromoly throughout. Features: unique pierced down tube head gusset, 1-3/8" down tube, 1-1/8" top tube, special top tube foot platform, 5/8" loop-top rear triangle complete with chain stay foot cages and double-track rear dropouts. Chrome or painted finishes available.
11. **Fork:** Hutch Trick Star, chromoly throughout. Features: 1" diameter legs, leading-axis design, double-track dropouts. Chrome or painted finishes available.
12. **Rims:** Ukal, alloy, 20" x 1.75", 36-holes.
13. **Spokes:** 36/080 cadmium plated.
14. **Hubs:** Hutch magnesium with titanium axles, sealed bearing.
15. **Tires:** Hutch by Mitsubishi, Comp IV skinnalls, 20" x 1.75", 35 to 40 psi.
16. **Cranks:** Hutch Aero-Speed, three-piece chromoly, 175mm.
17. **Pedals:** Hutch Trick Star, chromoly shaft, alloy replaceable cage.
18. **Chain:** Izumi 1/2" x 1/8".
19. **Bottom bracket:** Hutch sealed bearing.
20. **Front sprocket:** Hutch Aero-Speed disc with 43T alloy chain ring.
21. **Freewheel:** SunTour 16T.
22. **Brakes:** Dia-Compe MX-1000 calipers and Tech 3 levers, front and rear.
23. **Headset:** Tange MX 125 alloy, retained ball with Hutch 2-N-1 headset lock and flex fighter.
24. **Stem:** Hutch Pro.
25. **Handlebars:** Hutch Trick Star, all chromoly, 9-1/2" rise x 28" width.
26. **Grips:** Hutch vinyl.
27. **Seat:** Kashimax Aero plastic saddle, Hutch chromoly laid-back post with Hutch Aero post clamp.
28. **Miscellaneous:** Hutch Rad Kap valve caps, Hutch pad set, C.P.S. reflector set.
29. **Overall weight:** 23-1/4 lbs. with pads and without pad set.
30. **Approximate retail price:** \$750.
31. **For additional information contact:** Hutch Hi-Performance Products, Inc., 4030 Benson Ave., Baltimore, MD 21227, (301)242-6944.

Hutch magnesium hubs, Hutch pedals, Hutch freestyle bars, Hutch stem, Hutch grips, seatpost, bars, headset lock—the list goes on and on. But again, if you're an equipment nut, check out the specs. For the rest of you, please believe us, the Trick Star is awesome!

**TRICKY RIDE**  
The first ride aboard the Trick Star reveals design input from both Itson and Buff. This scooter is serious stuff. Combine its quick geometry (74.5-degree head and 72.5-degree seat) with its short rear triangle and longish front triangle, and you've got a top-level 'styler. There's plenty of room up front for all but the tallest riders, and the layout of the top tube platform and rear cages is well thought out.

Probably the most important thing about any freestyler is its ability to respond quickly and efficiently to weight shifts, direction changes, etc. Does it balance easily or does it fight you? Is it top heavy or does the front end feel

Although our test bike came with a conventional Hutch stem, Woody's personal trickster has a Power Products "Rob Modification" cable routing arrangement. It's similar to the famous Poits Modification. Note also the distinctive tubular gusset on the Trick Star. Trick indeed.

# TRICK STAR

too light? The answer to these and many other common fears of the beginning freestyler regarding the Trick Star is, don't worry about it. Just hang on, give it your best effort, and let the Trick Star work its magic. All we can say is, after your first ride, you'll know what we mean. Woody, Buff and Hutch spent some time on this puppy!

**TRICK OR TREAT?**

Should you run out and spend your hard-earned greenbacks on this freestyle wonder bike? Our answer depends on just how serious you are about your freestyle. You see, the Trick Star doesn't come cheap. At around \$189.95 for the frame and fork alone, and a healthy price tag of \$750 for the complete bike, the Hutch Trick Star is not for the weak of pocketbook or the entry-level freestyler. What the Trick Star is, is a super-serious state-of-the-art freestyle mount ridden by the best in the biz. It gets no better than this. And if you can appreciate something this precise, then we're sure you're ready to pay the price. Price aside, the Trick Star is ready to turn just about any dedicated freestyler into tomorrow's superstar. Have you got what it takes? When and if you decide that you do, the Trick Star will be waiting. ☐

The handling properties have to be especially good to pull off this strength move. ☐
